

## N. Y. COUNTY MOOSE ELECT COLBY TO STATE COMMITTEE

String of Anti-Hughes Winners in New Districts—Perkins's Boast Ridiculed

G. O. P. Mutiny Suspects Swiftly Heaved Overboard

Chairman O'Connell Predicts a Surprise for T. R.'s Backer at Syracuse Saturday

The New York County Progressives who are opposed to the endorsement of Mr. Hughes, Tuesday night materially strengthened their line, elected Bainbridge Colby, a member of the State Committee, and, through their Chairman, John J. O'Connell, ridiculed the expressed belief of George W. Perkins that the pro-Hughes element will have a substantial majority at the meeting of the State Committee at Syracuse on Saturday.

It appears that the leaders of the organization were able to gather the committeemen in the districts affected by the new Apportionment Bill more quickly than had been thought possible. As a result meetings were held Tuesday night in all but one of the affected districts, and, according to Mr. O'Connell, the anti-Hughes people won easily, electing their man and making sure a solid delegation from New York County to Syracuse, against Hughes.

**Mutiny Suspects Overboard**  
Mr. Colby, who has come to be regarded as one of the national leaders of the anti-Perkins and anti-Hughes element in the party, was elected from the new Thirteenth Assembly District.

Michael Schaaps, another strong anti-Hughes man, was elected a State Committeeman from the new Seventeenth. At the same time several members of the State Committee who were strongly suspected of a desire to board the G. O. P. band wagon were not re-elected.

With reference to the claim of Mr. Perkins that the Hughes faction will have 90 of the 150 votes in Saturday's meeting, Mr. O'Connell said: "If Mr. Perkins is so cock-sure that we will have ninety votes in that meeting, why did he refuse to give the names and addresses of the State Committeemen to the newspapers which have requested them for the purpose of making a canvass?"

**Surprise for Perkins**  
"Very likely his ninety votes are on a par with the 312 Republican delegates which his side partner, Mr. Horace Wilkinson, told us in Chicago he had 'sowed up' for the Colonel. True, Mr. Perkins, long after the convention, said that the claim was a lie. It would be interesting to know what Mr. Wilkinson thinks of Mr. Perkins's claim on the State Committee."

"Those of us who believe in holding the Progressive banner high and who believe in meeting out justice to both the attempted deliverers and their beneficiaries are not boasting before the event. We will only reiterate what we stated to the press last week, namely that if Mr. Perkins and the rest of the triumvirate expects to put their plans through at Syracuse, they have a sad surprise in store for them."

**EXTENSIVE FLOODS IN SOUTH**  
15 Killed and \$15,000,000 Worth of Damage Done. Railroads and Telegraph Lines Suffered Greatly

RALEIGH, N. C., July 17.—Fifteen persons dead, at least ten missing and property damage estimated at around \$15,000,000 is the known toll of the flood in five southern States, in the past nearly 18 hours.

Although the waters are receding in nearly all districts, railroads and telegraph communications still are demoralized and reports from towns and villages now isolated may increase both in number of deaths and the property loss.

North Carolina, South Carolina, Virginia, Tennessee and West Virginia all suffered heavy damage from the overflowing streams, swollen by torrential rains, which followed last week's hurricane as it swept inland from the coast, but the heaviest loss was in North Carolina, where eleven of the twelve deaths are reported and where two-thirds of the material damage was done.

Highway bridges of immense proportions have been swept away, and at least six large railroad bridges were carried away.

Crops were badly damaged in many sections of the five state flooded.

## WARNING TO FARMERS OF ATLANTIC STATES

Outbreak of the True Army Worm May Be Impending—Farmers Should Be Prepared

Washington, D. C.—An unusual abundance of the moth of the True Army Worm in Maryland, Virginia, District of Columbia and Southern Pennsylvania, indicates the possibility of an impending outbreak of this destructive pest in the Atlantic States. The moths, the entomologists of the U. S. Department of Agriculture report, were laying their eggs during the first week of July and as it takes from three to four weeks for the caterpillars to mature, their presence should begin to be quite apparent about the last week in July to the first week of August.

Farmers should be on the alert to discover this pest in its younger stages, before it has reached a large size and has committed irreparable damage to growing crops, especially grasses and grains.

**Spray**  
When the army worm is discovered at work the infested spots should be sprayed immediately with a solution of powdered arsenate of lead, 2 pounds to 50 gallons of water. If Paris green be used the spray should be composed as follows: Paris green, 1 pound; freshly slaked lime, 2 pounds; water, 50 gallons. The lime is necessary as a preventive of burning by the Paris green which is quite caustic when used on tender plants such as corn.

**Poisoned Bran Bait**  
When spraying is impracticable the poisoned bran bait is recommended. It is made as follows: Wheat bran, 50 pounds; Paris green, 1 pound, or white arsenic or powdered arsenate of lead, 2 pounds; low-grade molasses 3 to 4 quarts.

The bran and poison should be thoroughly mixed while dry and the molasses afterwards added, kneading and stirring the mass until it is easily broken into small bits. The addition of six finely chopped lemons has been found to add value to the bait in some cases. The poisoned bait should be scattered broadcast where the worms are at work or in their paths or among them while they are on the march.

**Ditching**  
When the army worms are moving together in a mass they may be halted and destroyed by plowing out or digging a narrow ditch with steep sides, directly across their path. The worms fall into this ditch in large numbers and may then be crushed readily by dragging a log, or chunk of wood back and forth through the ditch.

**Have Arsenate or Paris Green at Hand**  
All farmers should keep on hand a few pounds of one of the standard insecticides such as arsenate of lead or Paris green because of the fact that the delay of a few hours, usually necessary in order to procure insecticides in an emergency, enables the army worm to do irreparable damage to crops. The insecticides mentioned above will not spoil if kept in a dry condition in covered containers. Farmers' Bulletin No. 731 contains a full account of the army worm and may be secured free of charge upon application to the Secretary of Agriculture.

**With the United States Marines**  
With the United States Marines stationed at the marine barracks, Annapolis, Md., is Thomas H. Donaldson, of Six Mile Run, this county. Thomas, who is a son of Mrs. Mary E. Donaldson, of Six Mile Run, enlisted in the United States Marine Corps at its Cumberland, Md., recruiting station on January 3, 1915. Marines wear a distinctively military uniform and their service embodies expeditionary, sea, foreign shore and home duty.

Young Donaldson is now being held in readiness for transfer to expeditionary duty, where he will have many interesting experiences, or to a cruising battleship which will visit strange lands and give the Bedford County youth an excellent opportunity to see the world.

**With the United States Marine**  
stationed at the marine barracks in Washington, D. C., is Harry R. Roarabaugh, of Kearney, this county. Harry, who is a son of John H. Roarabaugh, of Kearney, enlisted in the United States Marine Corps at its Akron, Ohio, recruiting station on January 12, 1916, and is now having many experiences in the nation's capital.

## Figard-Detweiler

Mr. Harry Figard, of Six Mile Run, Bedford county, and Miss Gertrude Detweiler, of Baker's Summit, were united in marriage at 10 o'clock Sunday morning, at the home of the bride's parents, Mr. and Mrs. Henry Detweiler, in the presence of the immediate families. Elder F. C. Dively, pastor of the Church of the Brethren of Claysburg, was the officiating minister. The groom is an industrious young man and is employed at the brick plant at Sprowl. The bride is an estimable young woman and is held in high esteem by her many friends, whose wishes she has for a happy and prosperous future.

## Juniata Township Boy Found Bottle of Whiskey and Drank It. Death Resulted

A small son of Ross Shippy, of New Buena Vista, this county, died this week from the effect of several drinks of whiskey and eating green fruit. The boy, who was aged about 6 years was playing with his smaller brother and eating fruit in the field where his father and neighbors were harvesting, and found a beer bottle containing a quantity of whiskey. He drank the entire contents of the bottle, shortly afterward becoming very ill and death resulted.

## REVOLT IN MEXICO TO FORCE CARRANZA TO LEAVE

All Generals Will Join to Deliver the Ultimatum.

Advocate an Election at which De La Bana will Likely Be Choice of Country. A Bloodless Revolution to be Based on Reason and Pleading.

EL PASO, Tex., July 16.—An ultimatum to leave Mexico is to be presented to Gen. Carranza and Gen. Obregon by the Mexican Generals of Northern Mexico, according to further reports from Chihuahua City to-day by arrivals.

With the ultimatum backed by almost the entire military forces of Mexico, the leaders are said to believe a simple ultimatum to Carranza and Obregon would be sufficient; that it would be a bloodless revolution, to be followed by a national election, at which Francisco de la Barra probably would be chosen President, the Government would be refurnished and bandits would be completely exterminated, before the new Government would ask the recognition of foreign nations.

## Starving Under Carranza

Rumors of the approaching coup are gaining wide circulation in Chihuahua City, said the arrivals, and it generally seems to meet with popular favor. The masses realize that, under Carranza, they are starving, and they are willing to undertake any desperate enterprise for the sake of their families.

Carranza too is blamed for the continued presence of American troops on Mexican soil. The average Mexican believes, according to today's informants, that a threat delivered to the United States before Gen. Pershing entered Mexico would have prevented the entry of the American columns.

The purpose of the new Government will be, it is said, not only to allow the masses a voice in the administration of government and the promulgation of reforms, but also to call back the wealthy exiles, and bring to bear the entire forces of the republic into action for the rebuilding of Mexico.

**Within a month of the launching of the new movement Carranza will be overthrown, is the forecast in Chihuahua City.** The names coupled with the alleged revolt are those of Gen. Trevino, Murguía, Calles, Nafarrate, Gonzales and Herrera.

That the forces now in Northern Mexico are sufficient to overwhelm Gen. Villa and his 8,000 men by hurling 50,000 on them, there is no doubt. No such movement is to be expected, however, so long as Villa remains the popular idol of the common people, and until the leaders have something else to offer them—food, work and money.

**Plans of Revolutionists**  
So soon, however, as the coup is accomplished, both Villa and the Zapata brothers will be put permanently out of the way; the poisoning of country districts by mounted rurales, inaugurated by President Diaz, will be revived; guarantees will be extended to all foreigners, and application then will be made for recognition by foreign Governments.

Such is the outline of plans, as received here. Whether it is accurate no one can say prior to a pronouncement by the alleged leaders. But at any rate it is the purport of gossip among army officers and civilians at Chihuahua City.

The persons who have brought the news to the border agree that the project is to be launched within a month. It will be preceded by a thorough organization of troops and supplies, so that plans may not go awry. It is said this movement explains the commandeering of supplies for the army in Chihuahua, Durango and Coahuila.

Gen. Francis Gonzales, commanding at Juarez, announced this evening that to-morrow he would leave Juarez on a tour of inspection of the troops in his zone, numbering, he said, 7,000 men. He said he would visit his garrisons at Casas Grandes, Madera, Galeana, Villa Ahumada and Carrizal. At each of these places he will review the troops and inspect their small arms, machine guns, field pieces, ammunition and supplies. All zone commanders in Northern Mexico said Gen. Gonzales, are making such inspections.

## Will Not Meet Pershing

Asked if he would meet Gen. Pershing when he went to Casas Grandes, Gonzales said he did not think it would be necessary.

Casas Grandes is but a few miles from Gen. Pershing's base at Colonia Dublan. Announcement that Gonzales would review troops there was the first official intimation that Mexican troops had returned to that town, from which they withdrew several weeks ago and went to Madera.

It was announced thereafter from Mexican officials that Gen. Pershing had seized and occupied both Casas Grandes and Nuevo Casas Grandes, four miles distant. Ambassador Designate Eliseo Arredondo protested to the State Department regarding the alleged occupancy, pointing to it as a violation of agreement between the United States and Mexico.

It was announced afterward from the American sources that Pershing sent troops into both towns to arrest Mexican criminals who had been prey-

ing on the American columns. Whether he remained in possession of the towns has not been made clear.

Gonzales to-day turned over to Gen. Bell, commanding the El Paso district, two deserters from Pershing's army. The deserters gave the names of Pat and Joseph Farr, and admitted, according to Gonzales, that they had deserted from the base at Colonia Dublan. They were arrested at Guzman by Carranza troops and sent under guard to Juarez.

"The deserters told me men were deserting from Gen. Pershing at the rate of two or three every day," said Gonzales. "They said they did not object to fighting for the United States, but they disliked staying in Mexico and complained that their officers made them work too hard. They begged me not to turn them over to the American military authorities, because of the severe penalties to be imposed."

S. Carranza, a relative of Gen. Carranza, to-day sent to the newspapers a statement denying he had been sent to the American border to investigate reports concerning Gen. Trevino's activities in Chihuahua. He stated he had seen no reason to suspect the loyalty of Gen. Trevino and other military chiefs in Northern Mexico.

Because of a shortage of ammunition, Villa's bandits fear to attempt a stand against the Government troops under Gen. Matias Ramos, which are pressing them hard in the vicinity of Rosario, on the Rio Florida, according to private despatches received here to-night.

The despatches said that a scarcity of food is handicapping the operation of both outlaws and Carranzistas.

## John H. Clark, Appointed United States Supreme Court Judge to Succeed Charles E. Hughes

John Hessin Clarke, who has been selected by President Wilson to succeed Charles E. Hughes as an associate justice of the United States Supreme court, is fifty-nine and a bachelor. The only political office he has ever held is the United States district judgeship in the Cleveland court to which he was elevated two years ago this month by President Wilson.

Judge Clarke has long been a leader in the Democratic party in this city and state. He was several times a candidate for United States senator before a candidate against the late M. A. Hanna, in 1903. His candidacy two years ago was nipped by his appointment to the federal bench.

Judge Clarke was born at Lisbon, O., September 18, 1857. His father was prominent as a lawyer, and a Democrat. Mr. Clarke attended Western Reserve university and was graduated in 1877. He was admitted to the Ohio bar and moved to Youngstown, where he practiced law until his removal to Cleveland nineteen years ago.

After going to Cleveland, Clarke was for a number of years chief counsel to the Nickel Plate railroad and as such came to be termed a "corporation lawyer" by his political enemies. His friends, however, have contended that his railroad connections have in no way bound him to the "interests" and point to the fact that while he was attorney for the Nickel Plate during his campaign for the senate against M. A. Hanna, he urged the enactment of a two-cent railroad fare law and other legislation that in those days was regarded as even more radical than at present.

During the day, Mr. McCormick conferred also with Secretary McAdoo, Postmaster General Burleson, Senator James, chairman of the notification committee; Senator Walsh and several other Democratic leaders. He left Washington for Chicago tonight but will return later in the week. He expects to complete the selection of the democratic campaign committee within a few days, and may place some Progressives on it.

There was some questions as to the advisability of giving bibles instead of testaments, but after considering that each soldier must carry equipment which weighs over one hundred pounds, the class determined that it would send testaments. Mr. Charles C. Irvine a former resident of Bedford was the representative of the class and delivered the testaments to the soldiers. Every soldier appreciated the thoughtfulness of the members of this bible class and many have written home not failing to mention the gift.

# POWER OF WALL STREET BROKEN

Nation Saved By Wilson. Praises Wilson, James and Glynn.

COLISEUM, St. Louis, June 15.—With the fervor and swing of the eloquence which won him the nomination for the presidency in 1896, William Jennings Bryan to-night delivered an oration glorifying Wilson and modern Democracy, which electrified his great audience. It was a pean of triumph, ringing with the notes of victory.

After the invocation was delivered the crowd shouted for a speech from Bryan. Senator Thompson moved a suspension of the rules and, although there were a few "noes," the chairman declared that the "ayes" predominated overwhelmingly.

As a committee headed by Senator Kern of Indiana escorted Mr. Bryan to the speaker's place, the floor and galleries roared approval. Senator James introduced Mr. Bryan as "one of the leading citizens of the world and America's greatest Democrat."

The first phrases of the silver-tongued orator struck the chord of triumph and progress, and the amphitheater presented a vast picture of rapt countenances, beaming with expectation.

## United, Says Bryan

Democracy was entering the present contest, Mr. Bryan declared, with a united front and carrying the banner of peace, progress and prosperity. In the three years of its rule, with all departments of the Government in accord, it had pyramided achievement upon achievement, and it had built a platform of plans nobly conceived and performed.

Mr. Bryan glorified President Wilson. The great Chief Executive had mastered more problems than any predecessor in modern times. The party had stood behind him courageously. The achievements of the past three years were the arms with which victory would be won in this campaign.

Mr. Bryan opened by expressing his appreciation of the honor conferred by the invitation to speak to the convention.

"Every Democratic Convention is a love feast to me," he said. "It gives me an opportunity to meet and renew acquaintances with men with

whom I have been associated in politics, for more than 20 years." He paid his respects in complimentary manner to a number of Democratic officers and leaders of the present convention.

## Reviews Democratic Struggles

Reviewing the struggles of the Democratic party, Mr. Bryan said:

"After 16 years of waiting our party entered the White House and fortunately we won the Senate and House at the same time. Our party became responsible for national affairs, and now we come after three years of labor to make our plans for the future and to submit to the American people the claims of our party to continued confidence.

"Whatever differences of opinion may exist, or may have existed, as to particular measures or particular acts we are here to begin the fight of 1916 a united party in every State in the Union, ready for battle.

"To-day those who stand for the Democratic party are able to go before this nation and not only give a reason for the faith that is in them, but give a defense of the administration's claims to the confidence of the people.

## Praises Wilson's Work

"You make it. You may take all the administrations from the beginning of our history as a Republic to the beginning of the present one, and you will not find as many laws written upon the statute books, of great importance to the people as you will find written in the last three years by Woodrow Wilson, a Democratic President."

Briefly Mr. Bryan then referred to the tariff revision, the Federal reserve law and the strengthening of the anti-trust laws.

"No President since Jackson," said Mr. Bryan, "has had to meet such an unholy combination of the powers of high finance and even Jackson himself never met the situation better than Woodrow Wilson met it. We have just commenced to learn what the Federal reserve law means for this nation.

"This great piece of legislation, the greatest piece of constructive

statesmanship in a generation, not only has broken the hold of Wall Street upon the business of the nation but it has broken the grip of Wall Street upon the politics of the United States."

## "Wall Street's Hold Broken"

"For 20 years there has not been an election but what a hundred men in Wall Street could, by coercion they had in their power, change the result of the election. And one who, like myself, has felt their power, must be pardoned if he rejoices that we have an administration that has broken that power and set a nation free.

"There were great measures, carrying out the promise of a Democratic platform, and these three great measures constitute a record of achievement which the Republican party dare not attack.

"The electorate before which this Republican party now must go is not controlled as the convention at Chicago was by the expert representatives of the favor-seeking corporations.

## Challenges G. O. P. Criticism

"While our President and our Congress were at work constructing this splendid pyramid of performances, a war came that threw upon this administration such burdens as no President has had to bear within the last 50 years. We inherited from a Republican administration a revolution in Mexico. This administration has dealt with that situation and the Republican party dare not challenge a verdict before the country on the Mexican question.

"We have a few men interested in ranches and a few interested in mines who would use the blood of American soldiers to guarantee profits and their investments in a foreign land. But that is not the sentiment of the American people. The people of this country stand back of Woodrow Wilson in his determination not to intervene in the affairs of Mexico.

"Why, my friends, if President Wilson yielded to the demand of those who have clamored for intervention in Mexico, we no sooner would have crossed the line than the same men would tell him that the soldiers must never come out, for, my friends, annexation is the next step after intervention has been undertaken. And if we invaded Mexico, these same men would say 'On to Panama.'

"But, my friends, the President not only has had to deal with war to the south of us, but with war to the east of us. My friends, I have differed from our President on some of the

## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

methods employed in this war, but I am one of those who desire sincerely that this nation shall not become a participant in the dreadful conflict.

"We have a record upon which we can appeal to the people for their support, without fear and without blush. I believe the American people, grateful for what this administration has done, grateful that we have peace in this country while war stalks throughout the world, will not be unmindful of the fact that it was a Democratic President, supported by a Democratic Senate and House, who thus has saved the country the horrors of that war.

"My friends, I believe that there now is before this country an opportunity such as no other country ever has had since the beginning of time. I believe that God, in his providence, has reserved for the United States the honor and the task of lifting the moral code that governs individuals up to the level of nations, and making it a part of the code of all nations.

"There is a picture which has attracted attention wherever it has been seen—the picture of Christ before Pilate. Pilate represented the power of the Roman Government and back of him the legions of Rome. Before Pilate, helpless, unarmed, stood the Apostle of Love. For his triumph they nailed him to the tree, and those who stood around mocked and jeered and said 'He is dead!' but that, instead of being the end, was only the beginning.

## Might and Love in Conflict

"In a few centuries the power of Caesar was gone and his legions forgotten. The power of Christ, however increased until hundreds, yes, thousands of millions of people, have taken his name with reverence upon their lips; millions have been ready to die rather than surrender the faith that he put into their hearts. He has become the great factor of all history, the glowing figure of all time.

"To-day Christ and Pilate again

stand face to face, and force and love again are striving for mastery and dominion. The Old World represented force. It built its hopes of peace on fear and threats of violence. Each nation attempted to terrorize other nations into peace, and in their efforts they engendered hatreds that ended in war.

## "This Nation's Mission"

"If the nations now at war had spent one-tenth as much trying to cultivate friendship as they have spent in trying to cultivate hatred, there would be no war in Europe today.

"If I understand this nation's opportunity, and this nation's task, it is to lead the world away from its false philosophy and help it to build its hopes of peace on the enduring foundation of love and brotherhood and co-operation.

"And, my friends, if this is to be the task of this nation what party is better fit to perform the task than the party that preaches the brotherhood of man as next in importance to the fatherhood of God?

"I as a lover of my country, want to win this greatest of all prizes. As a Democrat, I want my party to have the honor that shall come with the accomplishment and fulfillment of such a task, and I stand with the Democrats of the nation to give to Woodrow Wilson an opportunity to be that man."

## Judging by Appearances

A senior pupil teacher, who was noted for his dilatory habits and slovenly appearance, was one day instructing his class, "boys, in addition to being a total abstainer and a non-smoker, I am a vegetarian. Now, Johnny Brown, tell me, what is a vegetarian?"

"If you please, sir," answered Johnny Brown, glancing toward the extended fingers, "it must be a man who don't use soap."

## The Wonders of Science

A camera man, working for the educational department of a film company, met an old farmer coming out of a house in one of the middle states, and explained his presence on the place thus:

"I have just been taking some moving pictures of life on your farm."

"Did you catch any of my laborers in motion?" asked the old man curiously.

"Sure, I did!"

The farmer shook his head reflectively, and then said: "Science is a wonderful thing."

### GERMAN BACKS PRES. WILSON

Gen. F. C. Winkler, G. O. P. Leader in Milwaukee, Pledges Support.

Washington, July 10.—A big break in the ranks of German-American Republicans in favor of President Wilson's re-election was announced when Senator Hustling, of Michigan made public a telegram sent the President by Gen. F. C. Winkler, of Milwaukee, one of the most influential German Republicans of the Northwest in which he will support President Wilson and urges all "true Americans" to do likewise.

General Winkler's telegram is as follows:

Have read your New York Press-Club address with great satisfaction. A Republican voter since 1850, I hold in the present crisis the party has no place. True Americanism must stand by the man who manfully stands at the helm. I support your re-election.  
F. C. WINKLER.

Senator Hustling's office in giving out this telegram, stated that it forecast a serious division in the ranks of the German Republicans in the Northwest and that President Wilson would receive many of these votes, which for years had been consistently Republican.

#### "Hungry Hogan" Dead

CHICAGO, July 14.—Henry Hogan, familiarly known as "Hungry Hogan" the oldest cabman in Chicago, who in the campaign of 1912 was named by some of his friends as candidate for the nomination for Congressman-at-large from Illinois, and who lacked only 100 votes of receiving the nomination, is dead at his home here.

Hogan had driven a cab for nearly fifty years and was known to travelers from all parts of the country.

## JUDGE WESCOTT PLACES WILSON BEFORE CONVENTION

ST. LOUIS, Mo., June 15.—The honor of placing the name of President Wilson in nomination was left to John W. Wescott, attorney general of New Jersey. In his address, Judge Wescott said:

Prophecy is fulfilled. The eternal verities of righteousness have prevailed. Undismayed by the calamities of war, unmoved by vituperation and vain declamation, holding to the pure altar of truth, the schoolmaster is statesman; the statesman, financier; the financier, emancipator; the emancipator, pacificator, the pacificator the moral leader of democracy.

The nation is at work. The nation is at peace. The nation is accomplishing the destiny of democracy. Four years ago the nation was not at work. With resources boundless, with 100,000,000 people eager to achieve and do, commerce languished, industries halted, men were idle. The country struggled in the tolls of an inadequate financial system. Credit was at the mercy of piracy. The small business man was bound hand and foot. Panic hung like a stormcloud over the business world.

Now bursting granaries, teeming factories, crowded railways and overloaded ships distribute wealth and comfort to uncounted millions the world over. Production outruns the means of distribution. The parallel of American prosperity is not found in industrial history; nor is it causeless. It did not descend, like a merciful accident, from heaven. It is not due to the devastations of a revised tariff.

It is not the result of destructive legislation. It cannot be attributed to the manufacture of war materials, constituting a bare 5 per centum of the volume of national business. War is destruction, not production. War curtails international trade. War depresses industrial energy. When the European cataclysm struck the world, moratoria fell like a blight upon many of the neutral nations, but not upon the United States.

#### New Monetary Laws

There stands the astounding phenomenon of American prosperity. What is its explanation? The Euclid of financial theory worked to a demonstration, measures for the country's relief. He promptly put into effect the legislative expression of a great program. He did not talk. He did things. He dynamited the monetary dams and let credit flow to the remotest corners of the land, its spray dashing even upon foreign shores. He released the nation's resources and set the energies of all men free to exploit them.

He destroyed commercial slavery. He struck off its shackles. The prosperity of the nation is the product of statesmanship and financial genius. American credit is now limited only by its own honesty and capacity. The cause being undisturbed, the effects must remain. The schoolmaster is statesman, the statesman is financier the financier is emancipator. With Lincoln, the emancipator of the chattel slave, he will live forever as the emancipator of the commercial slave.

The nation is at peace in a world at war. America is confronted with appalling realities. It is not the part of wisdom to play with phantoms, deal in riddles, or seek to entertain the national imagination with the legerdemain of language. To build words mountain high as the throne of vanity and ambition should not be an American pastime.

An attempt to catch the presidency by phrases is the work of folly. The function of a sounding brass and tinkling cymbal is not germane to the tragic conditions of the world. When the fate of millions is at stake, it is not the part of any man to stack the cards. With civilization in peril, the sphinx becomes an anachronism. The anachronism will remain the mysterious silence of the ages.

With the whole world tense and anxious, patriotic advice and suggestion are of more value than abuse and defamation. Speculation wilts in the blaze of truth. Abusive phraseology shrivels before the relentless fact. Honesty is the commanding quality of a free and patriotic American.

What are the realities that face us? In Mexico exist the potentialities of civilization. In her wealth, her history, her schools, her religion, her needs, her very suffering and patriotism lie the indestructible seeds of progress. To have conquered Mexico would have seated death at the American fireside. It would have destroyed our prosperity and added hundreds of millions of taxation to the burdens of the nation. It would have planted distrust and hatred of the United States in every South American republic.

#### Would Forfeit Respect

It would have forfeited the respect of the world. It would have substituted the tenets of imperialism for the principles of Americanism. It would have prostituted the bravery and patriotism of American arms to greed

and avarice of concessionaries. It would have robbed the United States of the grandeur of her mission among the nations of the earth. It would have made might right, and repudiated the doctrines of Christianity. It would have ignored the fundamental conceptions of moral progress and denied the right of 15,000,000 people to govern themselves.

Ambition and greed were prepared to sacrifice America and all that America stands for, in order to acquire the wealth of Mexico. The diplomacy of "watchful waiting" averted these calamities and preserved in their original purity the principles of American freedom and justice. "Watchful waiting" repudiated the brutal dictum of science that the weak must go down before the strong. Help Mexico lest over her bloody grave are sown the dragon's teeth of our own destruction.

War with any European nation would have set the world aflame and stopped the march of progress for a century. Would any one have had it so, in order to affirm a "virile Americanism"? Is a "virile Americanism" bloodshed, destruction, the horrors of war and its uncertainties? The substance of civilization is the arts, the sciences, literature, philosophy, industry, the domestic virtues, freedom, religion and peace.

But this is the substance of American nationalism. This is the virility of Americanism. It knows not national boundaries. It yet lives in the trenches and broken homes of Europe and pervades its very thrones. Therefore, America lives in the trenches and broken homes of Europe and its thrones. The stupendous conflagration is consuming the errors of statesmen and dynasties; it is not consuming the substance of civilization. Civilization is a unity.

War with Europe would have cut asunder the moral forces that bind the nations and left an age of darkness, anarchy and despair. Standing on the immutable foundations of such Americanism the schoolmaster and statesman with consummate skill a skill that commands the admiration of the world, directs the forces of civilization, not with arms, but with reason and moral pressure against the excesses of the belligerent world.

With preternatural poise and clearness of vision, he is piloting American thru the rushing storm. Who can deny the existence of a moral design in the universe? Who now can question its fulfillment? Who now can close his eyes to the destiny of democracy to make the principles of civilization dominant, to bring warring nations of the earth together in lasting peace? The passions of men die. The truth lives. America has called to Europe; Europe is responding in terms of a revitalized civilization.

#### Efforts for Peace

The sublimest picture in civil history is that of a plain American citizen maneuvering with the weapons of reason and humanity against the navies and armies of the contending nations, and bringing them in accord with the principles of international law. The American standard of peace and justice now floats on the sea. It is unfurling over the trenches of the struggling nations. From the vantage ground of imperishable Americanism the matchless craft of a real pacifist has not only avoided all war, but is leading the world into the ways of peace.

What is peace but the assertion of moral progress? What is the assertion of moral progress but the indestructible civilization of Europe and America? From the smoldering ruins of a thousand cities, over the graves of millions of brave men, out of the blackness of the battle smoke, arising from the obscurities of national passions, already the peoples of the earth recognize the dim outlines, growing ever more distinct, of the composite soul of America in the patient and humane wisdom of the world's real pacificator.

Of what avail all the wealth of our beloved land if it had been consumed in the destructiveness of war? What avail the travail of human progress for 10,000 years had not the schoolmaster and statesman been pacificator? His achievement is so vast that ambitious men are blind to its reality.

But the plain millions of all creeds and nationalities, recognize in it the imperishable glories of a Christian civilization. It glorifies the peasant and king alike. The schoolmaster is statesman, the statesman is financier, the financier is emancipator, the emancipator is the pacificator of the world.

Thus is the nation accomplishing the destiny of democracy. The commanding fact of the modern age is the spread of intelligence. The schoolhouse has conquered ignorance. The printing press has transformed the purposes and capacities of man. Education has qualified him for a bet-

ter existence. The Bible made him a moralist. Men know that the world is big enough to support the human family in peace and comfort.

Men know that the great problem of peace and comfort is not yet solved. They know that it cannot be solved by the savagery of war. They know that its solution is obtainable only in conditions of peace, reason and a practical morality. This state of knowledge is the crowning achievement of progress.

The American experiment of self-government has stood the test. The achievements of the American system are known of all men and felt thruout the world. The United States is the world's asylum. Here all races, all conditions, all creeds are assimilated, helped elevated and men are made into self-governing men. In America justice has made its greatest progress, because it is progress in which all men have a part.

#### The Dice of Destiny

That form of government which affords the fullest opportunity for happiness and comfort is destined to be the universal form. Such is the resistless syllogism of progress. War cannot stop its inevitable march. The opinions of all men is more potential than the opinions of one man. The best opinion of the best men, by the force of example and mutuality of interest, become the opinion of all men. American opinion is embodied in a man of peace. American opinion is marching thru the world.

When the imperialism of Europe cast the iron dice of destiny, America threw the moral dice of destiny. America staked the principles of her justice. There they stand in untarnished integrity in the gaze of a stricken world. The intelligence of men grasp the meaning of America. Her example will readjust the relations of men everywhere. The aspirations of men are for freedom. Men and women can and should rule themselves. The day when they rule themselves war will disappear. The hand of divinity has so written it in the needs and necessities of humanity made in its image.

America, prosperous, peaceful, blessed, is so because the inscrutable purpose of God intended it. The contrast between Europe in flames and suffering and the United States peaceful and prosperous is the divine contrast. By saving the American system civilization is saved. The peace of America demonstrates the folly of war. The principles of democracy furnishes the means of avoiding and preventing war. It will end in a world's league of peace. The universal intelligence of men decrees that the war now devastating Europe shall be the last war.

Sons of America, keep unsullied the sacred shrine of peace, thru whose portals will yet pass arm in arm the crowned head and the humble peasant in silent worship of God.

Out of the ruins and sufferings of the present conflict will arise a temple of justice whose dome will be the blue vault of heaven; its illuminants the eternal stars; its pillars the everlasting hills; its ornaments the woods and bountiful fields; its music the rippling rills, the song of birds, the laughter of happy childhood; its diapason the roar of mills and the hum of industry; its votaries the peoples of the earth; its creed on which hangs all the law and the prophets. "Love thy neighbor as thyself." Above its altars in ineffable color will live eternally the vision of its artificer.

Therefore, my fellow-countrymen, not I, but his deeds and achievements; not I, but the spirit and purposes of America; not I, but the prayers of just men; not I, but civilization itself, nominates to succeed himself to the presidency of the United States, to the presidency of 100,000,000 free people, bound in impregnable union, the scholar, the statesman, the financier, the emancipator, the pacificator, the moral leader of democracy, Woodrow Wilson.

## EVEN MONEY FOR WILSON

Betting on the curb in New York was 2 to 1 in favor of Hughes the second week after the nomination and \$50,000 was at the disposal of the Hughes men. The ratio is now 5 to 1 in favor of Wilson and no Hughes money in sight. The curb brokers offer the opinion freely that from the "recent change in the sentiment, President Wilson will be an odds-on favorite before election day."

The Republicans have arranged to send 20 of their best orators to Maine, to campaign for their State ticket. Don't you think that they are extremely fearful of the result? Don't you think too that there might come a relapse after such an avalanche of impetuousness? It seems to show to the people how racked their brains are as to the outcome of this fall's election. If they don't win this time it means the end of plutocracy in this country and the triumph of the Common people. It means the end of graft and grab and a free pitch in for all. It marks the end of Wall Street as the money centre and puts it into the hands of the United States where it belongs.

The President does not expect to participate in any campaign until after the adjournment of Congress which will be about August 20. He has made his wishes known to Congressmen that he would like them to speed up legislation to enable them to adjourn on August 20 or earlier. The time for the notification of the President of his renomination will be some time in August probably after the adjournment and the Campaign Committee will be selected about that time also.

Hughes and his followers are getting a little nervous over the Progressives. They thought, all that Perkins and Roosevelt would need to do was to desert the ship and the whole craft would go down but there are a few who are floating with heads above surface yet and are organizing their ranks and showing to the people that they are not followers of any man, nor two men, but of principles and that those principles must be maintained. If those principles were worth while in 1912 they are just as worthwhile in 1916 and that they are going to set their sails to keep them afloat.

In New York the Progressives have elected a delegation to hold a conference on next Saturday, July 22, for the purpose of putting over a state ticket and an endorsement of a candidate for President. The Progressives are so indignant over the sell-out they got at Chicago that they have eliminated all the old guard and elected new officers with handsome majorities. This means that over 50% of the New York Progressives are against Hughes and will support Wilson in preference, if no other candidate is placed on their ticket in the place of Roosevelt. The strength of the Progressives in New York is so great that in the face of a defection of 50% or more for a Progressive candidate will give Wilson a handsome majority in New York and if they select Wilson as their choice between Hughes and Wilson, Wilson will carry the state by a large majority.

Hughes and his followers are so marvelled at the Progressive defection that they are now arranging for more representation of the Progressives on Committees, etc., and Hughes is rearranging his acceptance speech to include some more progressive ideas. Just what he will place in the document to satisfy the Progressives that Wilson has not already enacted into law is problematical. Of course he can advocate a hypothetical program and advance on theories but he cannot suggest any practical thing that President Wilson has not done or is in the process of doing. Wilson has certainly covered the ground in the way of legislation for to-day's demands.

What the future may develop no one knows but the Progressives are of the opinion that Wilson is able enough to meet the changes that the future may bring just as he has met the contingencies of the days past, and that to the satisfaction of the people.

Will Hughes advocate greater or less preparedness? Will he advocate a higher tariff or lower tariff, its the Republican policy to make that as high as possible to enrich the few at the expense of the many? Will he advocate a stronger income tax or ask the repeal of the present law on incomes and put the main burden of taxation back on the people? Will he advocate the repeal of the clause in the constitution to elect United States Senators by the people? Will he advocate a ship subsidy that the millionaires may build or destroy our shipping interests or commerce at will? Will he repeal the Rural Credits law just passed by Congress giving the farmer a real chance in the financial fields of this country? Will he ask the repeal of the New Federal Reserve Act an act which makes it impossible for 3 or 4 men of wealth to bring on a panic at will? Will he advocate the discontinuance of the "New Freedom", which gives every man a chance in the business

world and does not place him at the mercy of his wealthy competitors, who used to set the price for buying and selling, alike, and dictated the man the prices he had to maintain or they would freeze him out of business? Will he advocate any of these things and a host more which space does not permit us to enumerate? Hughes does not dare to face the country on any of these except to take the side of Wilson. The people are thinking for themselves about these things. The farmers are coming to their own under Wilson. They never got recognition under any other administration. The labor has come to his own under Wilson and was always snubbed under other administrations. The man of ordinary wealth has gotten his share of recognition, who never got it before under any other administration. The only thing that we can see that Hughes can advocate is generalities, such as his "dominant Americanism," "Mexican policy" (and he hasn't any), "foreign policy" (and he knows no other, or at least he doesn't tell what he would do and that the people want to know).

The New York World seems up his "Dominant Americanism" thus: "All the reactionary interests and elements in the United States are supporting Mr. Hughes and dominant Americanism."

Wall Street is for dominant Americanism and the restoration of private control of the United States Treasury.

The monopoly-tariff hogs are for dominant Americanism and the privilege of robbing the consumer to increase the crop of millionaires.

The Morgans, the Armours, the Gays and all the other trust captains are for dominant Americanism and the re-establishment of a private wire into the white House.

The bankers whose power of life or death over business has been curbed by the Federal Reserve Law are for dominant Americanism and 51 per cent of the common stock.

The nation crowd is for dominant Americanism and a pipe-line into the Treasury.

The Mexican concessionaires are for dominant Americanism and a war to fatten their pocketbooks.

Dominant Americanism is a noble issue, and it is no less noble to-day than it was when Mark Hanna described the exploitation of the American people by privilege and plutocracy as "saving the national honor."

## WILSON'S LOGIC

I believe President Wilson is becoming stronger every day, and that he will be elected by a staggering majority in November. And why shouldn't he be? His Presidential career thus far gives cause for profound satisfaction to all true republican, democratic Americans. His aim as he has frequently said, and more frequently shown by his deeds, is to be the responsible representative of genuine Americanism. I cannot imagine Washington, Madison, Jefferson, Lincoln or even Alexander Hamilton turning in their graves at Wilson's record.

A man of profound learning, of strong will, of elevated tastes and aristocratic environments, Mr. Wilson has deliberately and consistently disengaged himself from himself and has been one of the constitutional "We, the people of the United States." "I, the Whole Thing," is at present in a condition of inelaborate desuetude, albeit latent militancy, near shark-infested waters. But Mr. Roosevelt is not as clever a political strategist as formerly. His retreat, "Anything to beat Wilson," is an uncovered highway swept by the batteries of logic, patriotism and just good horse sense. The Progressives have been led to the G. O. P. watertrough, but can't be made to—vote for Hughes.

Our great trader's agent, Mr. G. W. Perkins, slipped a cog in making his deal with the Old Guard. Probably by this time that little worker realizes that putting through a banker's scheme and handling a political trade have points of great dissimilarity. A man may command a billion dollars and not be able to control the Progressives, to say nothing about pulling 4,000,000 Bull-Moosers around by the nose.

"Let us hear the conclusion of the whole matter." Fear God and vote for Wilson, for he is a providential man.—From a Republican Minister.

Progressives Who Are Fighting Mad If the Progressives are to hold another convention, as is suggested by John M. Parker of Louisiana, candidate for Vice President, August 5, the date fixed by him for sentimental reasons as the anniversary of the convention four years ago, is rather early. It is not necessary to hold a National Convention in the true sense to accomplish what Mr. Parker and others, like the New Jersey Progressives have in view. A conference freely participated in by leaders of the party who decline to be delivered to the Old Guard Republicans would answer the purpose.

The betrayal of the Progressives at Chicago involved many of their most trusted men and was as complete an inside job in every respect as was ever pulled off by any political leaders.

At no moment during the sessions of the recent Progressive Convention did the party have a chance for its life. It was held in check until independent action became impossible, and when its snap adjournment was ordered it found itself without a candidate. For the truth of history and the vindication of a cause that deserved a better fate, the victims of this conspiracy should at least pass public judgment upon the whole proceedings.—New York World.

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

## Home Again

Mr. Thomas M. Sleek of Kansas City, Mo., formerly proprietor of the Pleasantville Hotel, this county, has been visiting the home folks the past three weeks. He is accompanied by his youngest daughter, Cora. His sisters yet living are "Aunt Sallie" Harbaugh, of Pleasantville, Mrs. Isaac Berkheimer, of near Cessna and Mrs. Gordon Hammer, of Johnstown. Mr. Sleek left Pleasantville twenty six years ago. Although in his 75th year he is remarkably well preserved, genial, friendly and the same hospitable "Tom" so well known to this county and the traveling public a quarter of a century ago.

Pennsylvania Big Russ War Order. Hollidaysburg, Pa., July 17.—Thirty-one hundred and twenty-five cars filled with munitions of war and consigned to Vladivostok, Siberia, have gone through the East Hollidaysburg freight classification yards of the Pennsylvania Railroad Company within the past eight months. The bulk of these shipments have reached the Russian battle front by this time. Yesterday a solid train of 75 cars of shrapnel shells went through the yards, enroute to the allied armies in France.

## RAILROAD WAGES

## Shall they be determined by Industrial Warfare or Federal Inquiry?

## To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Eastern Railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest, and average of all) as shown by the payrolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1641 3224	\$1931	\$1585 2992	\$1783	\$1303 2178	\$1543
Conductors	1553 3004	1831	1552 2901	1642	1145 1991	1315
Firemen	951 1704	1128	933 1762	1109	752 1633	935
Brakemen	957 1707	1141	862 1521	973	834 1635	1085

The average yearly wage payments to all Eastern train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$1796	\$1546	\$1384
Conductors	1724	1404	1238
Firemen	1033	903	844
Brakemen	1018	858	990

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

## Shall a nation-wide strike or an investigation under the Government determine this issue?

## Be Careful

Don't buy anything that promises you more than a fair and reasonable return. Be suspicious of investments which promise too much.

Make your money work for you, but do not set it a dangerous task. Do not try to make it bring more than it can earn, for then you are putting it in such peril that it may be lost. Neither let it be idle because being unemployed it will waste away. For a safe investment, consult the

## HUGHES AND MEXICO

Candidate Could Learn From Fair-  
banks Who Sustained Wilson and  
Hit Jingoism Hard.

Candidate Hughes, in contriving to  
show error in President Wilson's  
handling of the Mexican question, has  
the task of avoiding, if possible, any  
conflict with the former upholding of  
Wilson's Mexican policy by Charles  
W. Fairbanks, Vice Presidential can-  
didate on the Republican ticket with  
Hughes. In an address made by ex-  
Vice President Fairbanks to the In-  
diana Republican Editorial Associa-  
tion, just before Senator Kern, of In-  
diana, on August 21, 1913, caused the  
views expressed in that address to be  
placed in the Congressional Record,  
the present running mate of Hughes  
advocated the very principles which  
then and since have governed the  
President in dealing with the trouble-  
some legacy left to his administration  
from that of President Taft, who, in  
March, 1911, ordered 20,000 soldiers  
to the border on account of continued  
lawlessness in Mexico. As the Mexi-  
can disorders were not remedied by  
any power in that country, our troops  
have remained there ever since, and  
President Wilson has had the job of  
protecting the United States from in-  
jury by Mexican revolutionists and  
freebooters.

Senator Kern's use of the Fairbanks  
address was prompted by Senator Pen-  
rose's unbecoming in relation to "Amer-  
ican citizens in Mexico." Mr. Fair-  
banks in opposition to intervention by  
the United States in Mexico, said he  
had no doubt that the disturbances  
in that country during the preceding  
few years had been due, in a greater  
or less degree, to "an effort on the  
part of ambitious, designing men to  
force intervention and possibly annex-  
ation. The exploiters of public utili-  
ties and of the mineral and agricul-  
tural resources of our neighbor have un-  
doubtedly thought that they would  
gain much if they could force inter-  
vention by the United States." Mr.  
Fairbanks thought that the Spanish-  
American war could very probably  
have been averted if this country could  
have exercised "a little more pa-  
tience, patriotism and self-restraint."

Pecuniary loss by speculators in  
Mexico was a matter for future con-  
sideration after establishment of a  
stable government and peace, Mr.  
Fairbanks said, and was not warrant  
for shedding the blood of Americans.  
He added that President Wilson was  
dealing with the situation as best he  
could, and without a delibera-  
te affront from the Mexican

Government (de jure or de facto)  
there would be no good ground on  
which we would be justified in send-  
ing our armies beyond the Rio Grande.  
"The clamor of the jingoes," Fair-  
banks said, "should not be allowed to  
drown the voice of national, deliberate  
statesmanship," and in face of grave,  
international problems, we should put  
our faith in the President "and follow  
where he may lead."

The Pennsylvania Democratic State  
platform, adopted by the State Com-  
mittee on May 31, admirably sets  
forth, in substance, the President's at-  
titude toward Mexico. The platform  
refers to his refusal to allow our  
country to be drawn by selfish interests or  
the lust of conquest, into the Mexican  
internal strife; his zeal in protecting  
the independence and fundamental  
rights of the Mexican people, and his  
prompt and vigorous action in conse-  
quence of the massacre at Columbus,  
New Mexico. Wilson is praised fur-  
ther for his maintenance of the Mon-  
roe doctrine and his winning from  
Pan-American countries such trust  
and confidence in the United States as  
to assure lasting friendships and rapid  
expansion of our trade in Central and  
South America.

### Prosperity at Grundy's Home.

The fact that industries seeking  
admission to Bristol could not find  
any empty factories in that town  
available for the purpose is admit-  
ted by the Bristol Courier, which  
speaks for the interests of that lead-  
ing high-tariff manufacturer and ma-  
chine boss, Joseph P. Grundy. The  
Courier says that any building of suf-  
ficient size for factory purposes could  
be leased without any difficulty. This  
admission that the vicinity of the  
home of that apostle of high protec-  
tion is enjoying its share of the won-  
derful degree of prosperity which  
has come to the country under Dem-  
ocratic administration, is hardly con-  
sistent with the criticisms which  
Grundy and his colleagues have ut-  
tered upon the present tariff law.

Bankers Thank President Wilson.  
The G. O. P. campaigners will be  
up against the representative busi-  
ness men who compliment President  
Wilson for the promotion of the coun-  
try's business interests by his ad-  
ministration. An indication of his  
growing strength in the estimation  
of the business elements is seen in  
the telegram sent to him by the 1,000  
financiers assembled in connection  
with the annual convention of the  
New York State Bankers' Associa-  
tion. The telegram over the signa-  
ture of their president, B. E. Smythe,  
declared the consensus of opinion to

be that the Federal Reserve Act had  
resulted in great benefit to the coun-  
try at large as well as to the banking  
interests.

"Because some people blow slan-  
derous words your way doesn't hurt  
if you live with your conscience," says  
Governor Brumbaugh. This, however,  
is hardly a satisfactory way of dis-  
posing of the accusations that he got  
several checks for money to help him  
along in his gubernatorial campaign  
and did not account for any part of  
those gifts in his sworn report of his  
campaign expenses.

Roosevelt himself has destroyed  
the illusion that he was fighting for  
principles and ideals. Real fighting  
for aims which he professed to cher-  
ish would not have been abandoned  
because another defeat was the pros-  
pect. Evidently the Colonel was in-  
fluenced by belief that a second beat-  
ing would bar him from the road to  
Washington henceforth.

WILSON SPEAKS TO SALESMEN

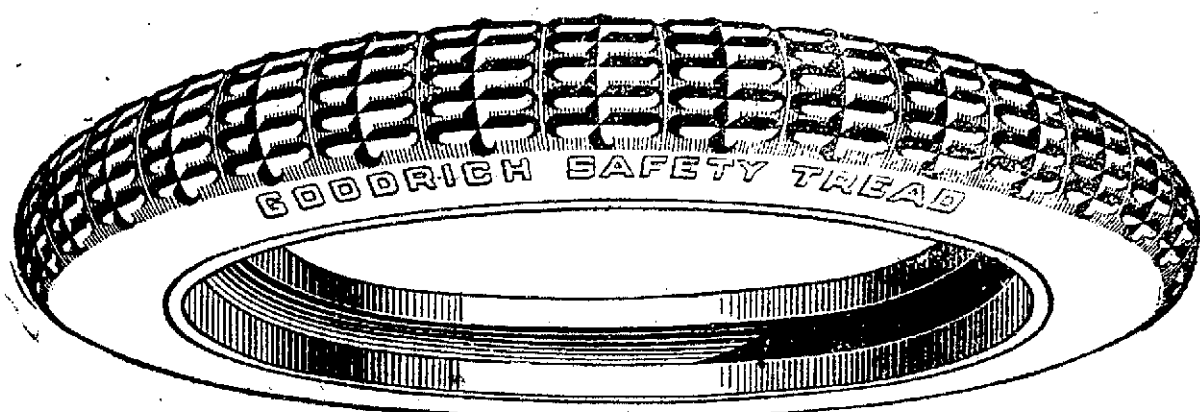

President Urges Business Men to  
Carry American Justice to All  
Parts of the World.

Detroit, Mich., July 10.—President  
Wilson aroused great enthusiasm at  
the world's salesmanship congress to-  
day, by urging that business men  
carry justice and fair dealing into  
the ports of the world particularly  
those of Mexico and thereby estab-  
lish confidence in American prin-  
ciples. "His efforts," he declared, "will  
be to serve all America by serving  
Mexico herself for her best interest  
without using force and not to serve  
the few gentlemen who wish to ex-  
ploit Mexican possessions."

When the President asked the  
crowd what it desired at the end of  
all the present world's troubles, it  
shouted, "Peace," in one voice and  
then he added that his wish was  
"permanent peace."

"I hear some men say," he said  
"that they want to help Mexico and  
the way they propose to help her is  
to overwhelm her with force. That  
is the wrong way as well as the long  
way."

"After fighting them you should  
have a nation full of justified suspi-  
cion. Thus, you would not have them.  
You would shut every door against

## Help us to HOLD DOWN— Tire Prices

TIRES, and GASOLINE, "make the Wheels go round!"  
A Car in the Garage COSTS as much as a Car-on-the-Road,  
but it pays no dividends, on the investment, so long as it STAYS in  
the Garage.

The VALUE of the Car,—to its Owner,—narrows down, in the ultimate,  
to the precise number of Hours he USES that Car, yearly.

If a \$2,000 Car be owned for, say, 4 years (then sold for \$600.) there has  
been \$1,400 of Car-Value absorbed by the Owner,—equal to, say, \$350. per year.

If then, that Car be USED 913 Hours in the year, it would cost him but 38  
CENTS per Hour, for Car-Use.

But,—if he used it only HALF that number of Hours, yearly, the Car would  
cost him 100% MORE for every Hour he used it.

How MUCH he uses it will depend,—to a considerable extent,—upon the  
PRICE of TIRES and GASOLINE.

This was one of the reasons why we (Jan. 31st, 1915) inaugurated the Goodrich  
"FAIR-LIST" Propaganda against High-prices, and Padded-Price-Lists, on Tires.

It is a further reason why we NOW keep our own Goodrich Prices DOWN  
to the very moderate "Fair-List" figures here quoted.

BETTER Fabric Tires are NOT made, and cannot be made,—at ANY  
price,—than are produced by The B. F. Goodrich Co.

A 15%, to 50%, higher price could well be justified for these  
same Tires, by fair comparison with other Tires sold at 15% to 50% higher prices.

Will you help your own interests (present and future), by further expanding  
the Sale of that Tire which demonstrates its Intention, through LOWERING the  
Cost of its Tires to you, with every INCREASE in its Volume?

Will you thus endorse, and support, the Goodrich Policy which automatic-  
ally PREVENTS OTHER Makers from forcing UP the Market on Tires?

Compare Goodrich Fair-List prices, here quoted.

Bear in mind that NO Fabric Tires,—at ANY price,—are "better,"—no  
House more Fair, and LIBERAL, on proper Adjustments.

THE B. F. GOODRICH CO., Akron, O.

## Goodrich "Fair-List" Prices

30x3	Ford Sizes (Safety-Treads)	\$10.40	34x4	\$22.40
30x3½		\$13.40	35x4½	\$31.20
32x3½		\$15.45	36x4½	\$31.60
33x4		\$22.00	37x5	\$37.35

NOTICE.—These Tires are as perfect as Fabric Tires can be made.  
But, should any dissatisfaction whatever arise, with any Goodrich Tire, its Owner is  
invited, and REQUESTED, to take the matter up promptly with us,—the Makers.  
He will find that Fair, Square, and LIBERAL treatment will always be extended, on all  
proper adjustments.

you. What makes Mexico suspicious  
is that she thinks we do not want to  
serve, but possess her. And she has  
justification for these suspicions in  
the way some gentlemen have sought  
to exploit her possessions. I will not  
serve these gentlemen, but I will  
serve all America by trying to serve  
Mexico herself. The way to estab-  
lish our sovereignty is to respect her"

### ROBBING THE CHILDREN

Little Talks on Health and Hygiene  
by Samuel G. Dixon, M. D. LL. D.  
Commissioner of Health.

The present habit of turning night  
into day in our highly illuminated  
towns, with all sorts of exciting en-  
tertainment, keeps the nerves keyed  
up and upsets the equilibrium.  
Children especially are apt to suf-  
fer from late hours and consequent  
lack of sleep.

For the first two years of life, eat-  
ing and sleeping are the two great  
essentials.

Babies should sleep from fifteen  
to twenty hours out of the twenty-  
four and older children from ten to  
fourteen hours. It is not an unusual  
thing to see babies in arms, or very

young children being carried about  
until their parents' bed time. This  
is injurious to the children and can-  
not be made up by additional rest  
the next day.

Permitting children to remain up  
late is a strain on their nervous sys-  
tem which, while it may not be im-  
mediately apparent, is bound to ex-  
ert a detrimental influence in the  
long run. Oftentimes the ill effects  
are perfectly apparent to the intelli-  
gent observer.

Irritableness and any of the train  
of evils which result from an over-  
taxed nervous system may result  
from continually robbing the child of  
sleep. A regular bed time should be  
set for children according to their  
ages, ranging from six o'clock for  
babies to eight for children of eight  
or nine and this should be regularly  
adhered to. This is a matter of the  
utmost importance in establishing a  
sturdy constitution in childhood.

With adults, irregularity and short  
hours of sleep are often a factor  
which predisposes to ill health. There  
are exceptions to this as to all rules.  
Occasionally one will find an individ-  
ual who has an unusual capacity for  
work with less than the ordinary

amount of rest but for the ordinary  
man or woman this would end disas-  
trously.

### Following Doctor's Orders

"Six months ago you told me you  
couldn't sleep at night for worrying  
about the money you owed me."

"So I did," answered the impecu-  
nious debtor.

"But you still owe me and you are  
not a nervous wreck."

"True. You see, when I realize that  
it was impossible to pay you, I went  
to see a doctor about my insomnia.  
He advised me to quit worrying and  
if there is anything I pride myself on  
it's following the doctor's orders im-  
plicitly."—Birmingham Age Herald.

## Another "Liar" Developed.

J. A. H. Hopkins, Chairman of the New Jersey Progressive State Committee reports that early in the year, Roosevelt in discussing the possibility of Hughes as a candidate for the Presidency, said that he (Hughes) might "turn out to be another gold brick." Now Roosevelt denies that the assertion is true and brands it as "false, absolutely false."

A defective memory is not in the possession of the Colonel at all. Everybody else who is known to the President is not to be trusted and is so deficient in memory that he cannot be held as responsible therefore, he is a "liar," "prevaricator," "falsifier," etc. We will never see sight of the truth when Roosevelt is dead. It is a world calamity to have the whole truth bottled up in Roosevelt. We will have to readjust our morals when he dies because of the lack of one of the prime virtues of life.
